Saskatoon, SK

## ABOUT US

---

Contour is a Saskatoon-based construction company. We are proud to be one of the leading concrete companies in Canada, with a reputation for quality, reliability, and innovation. We serve mining, industrial, and commercial markets in Saskatchewan and across Canada. At Contour we have the skills and equipment to deliver exceptional results.

## OUR HISTORY

---

Contour has a long and successful history in the city of Saskatoon. We began as a small team of dedicated and hardworking professionals, pouring concrete driveways for residential customers. As our reputation grew, we started to take on bigger and more complex projects in the commercial and industrial fields. Today, we are proud to be involved in some of the most challenging and rewarding concrete projects in the country.

# OUR FOUNDATION

Contour delivers exceptional concrete services for commercial and industrial clients. We handle every project with skill, quality, and style, using the best materials and methods for lasting results.

We work as a team, with open communication and innovation, aiming for excellence and satisfaction for ourselves and our clients.

## MISSION

We exist to build foundations and structures for our clients, while building foundation and structure in the lives of our own people and communities.

## VISION

Contour aims to grow and expand our services and markets, while maintaining our high standards. We aspire to be the leading concrete company in Canada, with a reputation for quality, reliability, and innovation.

## VALUES

At Contour, we value quality, teamwork, and innovation. We respect our crew and clients, and we strive for excellence in every project.

# OUR SERVICES

We offer a wide range of services, from foundations to floors, structures to finishes, for various sectors and projects.

## 01 INDUSTRIAL AND MINES

Industrial concrete solutions for the mining industry: high-quality and reliable concrete structures and foundations such as concrete wedges, concrete spillways, concrete reinforced plinth, and concrete ditch plugs.

## 02 COMMERCIAL CONTRACTORS

Concrete construction for large-scale projects: parkades, suspended slabs, structural concrete, slab on grade, reinforced concrete grade beams, pile caps, columns, elevator shafts, stairwell cores, and structural slabs.

## 03 CONSTRUCTION MANAGEMENT

Planning, budgeting, coordinating, and supervising construction projects for hotel renovations, retail space build outs, office renovations, and other commercial construction projects.

# PROJECT HIGHLIGHTS

Each project has a dedicated project manager who partners with our clients to achieve great results while staying on budget and schedule.

## MINE CONSTRUCTION

Contour provides industrial concrete solutions for the mining industry, where we build quality and reliable concrete structures and foundations.

## SUSPENDED SLABS

We have expertise pouring large-scale suspended and structural slabs, ideal for heavy equipment and machinery.

## PRECAST CONCRETE

Our team has successfully completed several projects using precast concrete panels, offering benefits such as energy efficiency, fire resistance, and design flexibility.

## STRUCTURAL CONCRETE

Contour delivers high-quality, technical concrete solutions for the commercial and industrial industry, with safety and quality being our top priority.
